PROBLEM STATEMENT 7

```java
package demo;

import org.openqa.selenium.By;
import org.openqa.selenium.chrome.ChromeDriver;

public class AlertBoxDemo {
    public static void main(String[]args) {
        //1)open the browser
            ChromeDriver driver = new ChromeDriver();

            //maximize it
            driver.manage().window().maximize();

        //3)navigate to application
            driver.get("https://retail.onlinesbi.sbi/retail/login.htm");

            //4)Click on continue to login
            driver.findElement(By.linkText("CONTINUE TO LOGIN")).click();

            //5)click on login button
            driver.findElement(By.id("Button2")).click();

            //6)close the alert box
            driver.switchTo().alert().accept();

    }
}
```
